DETAILED ACTION

Response to Amendment

1. Applicant's arguments with respect to claims 1 and 13, have been considered but are moot in view of the new ground(s) of rejection.
2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 7-11, 13-17 and 19-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Busuioc et al. (US Patent 6,151,309).

Regarding to claims 1 and 13, Busuioc et al. disclose a method of providing a service in a communication system, wherein the service is provided by a content provider to a user through the communication system, the method comprising the step of:

providing price information associated with communication through the communication system to the content provider (see col.7 lines 1-11);

Art Unit: 2684

receiving from the content provider, price information related to a plurality of options related to values of at least one communication parameter to be used during the provision of service (see col.7 lines 19-20);

Providing to the user as a function of price the plurality of options for selection therefrom by the user (see col.7 lines 25-30); and

Receiving a selection of one of the plurality of options from the user (see col.7 lines 25-34).

Regarding claims 2 and 14, Busuioc et al. disclose at least one communications parameter is related to the quality of service perceived by the user (see col.7 lines 37-49 and col.10 lines 6-12).

Regarding claims 3 and 15, Busuioc et al. disclose service is an information service (see col.10 lines 37-38).

Regarding claims 4 and 16, Busuioc et al. disclose communication system is a radio communication system (see col.1 lines 25-32).

Regarding to claims 5 and 17, Busuioc et al. disclose communication parameter includes bandwidth (see col.7 lines 40-42 and col.10 lines 6-12).

Regarding to claims 7 and 19, Busuioc et al. disclose the function of price is determined using price information input by the content provider and price information input by one or more further service providers forming a communication route between the content provider and the user (see col.7 lines 18-21).

Regarding to claims 8 and 20, Busuioc et al. disclose the function of price is determined using stored price information data obtained from an earlier provision of

Art Unit: 2684

service employing the corresponding values of said at least one communications parameter (see col.6 lines 41-59).

Regarding to claims 9 and 21, Busuioc et al. disclose the function of price is determined in real-time using currently applicable price information (see col.11 lines 29-41).

Regarding to claims 10-11 and 22-23, Busuioc et al. disclose simulation means are provided by the content provider for use by the user to carry out simulation of the service that would be provided according to an intended selection by the user (see col.7 lines 25-29).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 12 and 24, are rejected under 35 U.S.C. 103(a) as being unpatentable over Busuioc et al. further in view of Chow et al. (US Patent 6,456,839).

As to claims 12 and 24, Busuioc et al. fail to disclose service to the user for a limited duration.

Chow et al. disclose service to the user for a limited duration (see col.3 lines 1-12). Therefore, It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the system of Busuioc et al. with the above teaching of Chow in order to provide competitive reduced cost to a subscriber.
